

PRODUCT INFORMATION

PRO60

VERSION 01 JULY 06

Pro60 Workabout Pro Printer

APPLICATIONS

- PARKING ENFORCEMENT
- MOBILE RETAIL
- RENTAL SERVICES
- SUPPLY CHAIN AND LOGISTICS
- LIGHT INDUSTRIAL ENVIRONMENTS

The Blackroc Pro60 is a 60mm Bluetooth enabled fast thermal printer designed for direct attachment to the rear of the Workabout Pro range of handheld computers. **Because of the Bluetooth link the unit may also be separated from the Workabout Pro and used as a belt mount printer.**

A high power field replaceable battery can easily be removed from the unit using a standard coin. Charging of the battery takes place either directly using a standard Workabout Pro mains adapter or whilst mounted on the Workabout Pro and in the Workabout Pro cradle. Blackroc provide a range of cable adapters for different docking and charging scenarios.

The Pro60 has a 58 mm wide print roll and uses the popular 'easyload' method of paper roll installation.

The unit can be used with other devices in the Workabout Pro internal slots, including Blackroc's full range of Workabout Pro comms endcaps and the new Blackroc high resolution camera.

A range of leather cases is available for the product.
