SUBMIT SOFTWARE

If you are a developer who would like to have your application listed, updated or removed, contact us at partners@smartphoneuser.com. For your application to be reviewed, contact us at reviews@smartphoneuser.com.

What's New

In future versions of the Nokia Software Directory from SMU, we will include details of New and Updated applications on this page.

Since this is our first edition – and the 9210 is so new – many applications have not yet been officially announced, or available detail is limited.

This first release of the Software Directory is incomplete at best, but will be updated over the course of the next few weeks.

Please bear with us.....

Thank you

Editor, SMU

Name:	→ ZIP Manager		
Date First Released:	June 2001	Current Release Date:	June 2001
Current Version:		Size:	200Kb
Developer:	EpocWare		
Web URL:	http://www.epocware.com/nokia/downloads.html		
Languages Supported:	English, French, German & Polish		
License Type:	Shareware 21 Days Evaluation	Price:	\$19.00

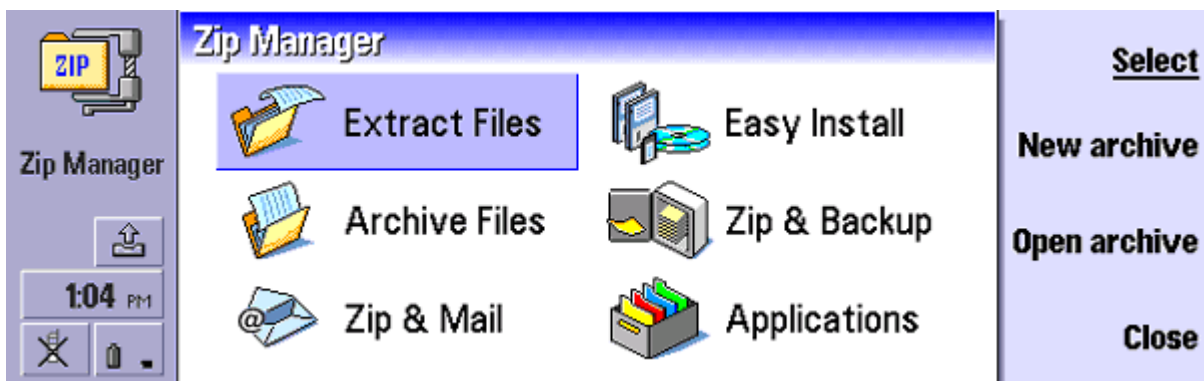

Summary

Zip Manager is the most powerful and easy-to-use file compression program for The Nokia 9210 Communicator. Zip Manager provides the way for you to handle zip files in a more conventional way. Zip Manager gives you a choice of zipping methods: Archive Window and Wizards.

If you already know how to work with zip archives, it is probably faster for you to use the Archive Window. The Archive Window displays the contents of the current archive. You can look at the names, sizes, compression ratios, and date/time stamps of all files stored in the archive, using arrow keys.

The Archive Window offers an easy to use, graphical interface with buttons and menus to compress, extract, open files, and perform other commands. Extensive context sensitive help is always available. If you are new to zip archives, the Wizards will guide you, step by step, through the most common tasks related to zip files.

Date First Released:	June 2001	Current Release Date:	
Current Version:	Not Available	Size:	880k
Developer:	TomTom		
Web URL:	http://www.palmtop.nl/crystal/vrally.html		
Languages Supported:	V-Rally is available in English, French, German, Japanese and Spanish.		
License Type:	Commercial	Price:	Not Available

Summary

The famous COLOUR rally simulation is available for the Nokia 9210! Are you ready to win the supreme title of WORLD RALLY CHAMPION DRIVER? You'll have to master the incredible power of authentic rally cars throughout 20 very demanding special stages on very different surfaces such as asphalt, snow, mud, gravel....

V-Rally actually makes players feel like they're driving on rally tracks that go up hills and down into valleys, through rain, mud patches and even snow. The game sports superb graphics that include land- or cityscapes at the horizon, roadside obstacles (including signs, buildings and more), and varying street conditions. You will be impressed by the 3D look of the multi-colored road and the details of the cars and the tracks. Pocket racing certainly has come a long way!

Are you a rookie, a pro or an ACE driver? Choose the right car for your driving style if you want to stand a chance! V-Rally offers you a choice of 4 cars. The cars are characterized by four different attributes:

ACCELERATION: acceleration potential.

MAX SPEED: maximum speed.

GRIP: roadholding.

BRAKING: braking effectiveness.

Watch out for narrow turns, objects on the road and competing cars... Collisions may cause you to bounce a bit and lose speed, but if you smash into an obstacle at high speed you are penalised with a time intensive car flipping animation! Braking for tight turns or obstacles is just as essential as using your quick reflexes to avoid smashing into another car or skidding through an oil patch. But first of all, you need SPEED!"

Summary

Celesta Smart Forms is the market leading Rapid Application Development Tool (RAD) for communicators and smartphones allowing quick development of mobile business applications with wireless communications.

Celesta Smart Forms, now available also on the [Nokia 9210 Communicator](#), provides better communications to all your mobile users and increases productivity. With Smart Forms, Celesta customers can improve their mBusiness considerably, for example, in the following market segments: Field Service, Fleet Management, Courier Services, Field Sales, Public Utilities, Inspection and many more.

Category: Medical

Name:	→ Mobile EBM		
Date First Released:	June 2001	Current Release Date:	
Current Version:	Not Available	Size:	Not Available
Developer:	EBM Guidelines		
Web URL:	http://www.ebm-guidelines.com/mobile.html		
Languages Supported:	English		
License Type:	Commercial	Price:	Not Available

Summary

Mobile Evidence-Based Medicine Guidelines (EBM Guidelines) is a unique database for physicians.

The guideline collection includes more than 900 articles on most important diseases. Individual treatment recommendations are supported by evidence summaries based on high-quality systematic reviews and links to the corresponding Cochrane abstracts (Update Software, UK). The mobile EBM Guidelines gives physicians easy and fast point-of-care access to updated and reliable medical information whenever needed.

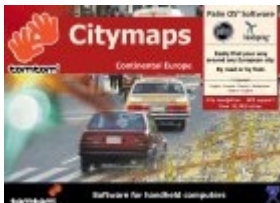

The texts of EBM Guidelines are concise and have been structured to be easily readable from Nokia Communicators screen. Searching is fast and easy because the search program and core database are located on the memory card. The mobile EBM Guidelines is updated frequently and offers the physicians a high quality tool for keeping the essential information in their own pockets.

Co-operation with the Update Software (UK), the publisher of the Cochrane Library guarantees the internationally valid high quality of each evidence coded treatment recommendation. Evidence based coding make the contents globally usable by definition.

Category: Travel & Route Planning

Name:	→ TomTom Citymaps		
Date First Released:	June 2001	Current Release Date:	
Current Version:	Not Available	Size:	See Memory Reqs
Developer:	TomTom		
Web URL:	http://www.palmtop.nl/crystal/citymaps.html		
Languages Supported:	English, French, German & Dutch		
License Type:	Commercial	Price:	Not Available

Summary

TomTom Citymaps is a convenient citymap and route planning application. TomTom Citymaps can plan perfect routes within a city. You will be guided to your destination in over 30.000 European cities via any road, street or alley in an instant! Whether you walk, drive or take the bus TomTom Citymaps can be your own personal navigator around Europe. You can even attach a GPS receiver, allowing you to see your location on the map.

Memory Requirements

At least 580k of free memory is required to run the application. More may be required when planning complex routes. Memory requirements will depend on the maps you wish to install. Most cities are between 200 and 400k, major cities such as Paris can be as large as 3.4 Mb.

Name:	→ TomTom Route Planner
